Manager Analytical Services, A. Loete, Veghel, 14-06-2023

The analysis is performed in the period between the date of sample receipt at NutriContol and the date of reporting. Microbiological analysis of perishable products is started within 24 hours of samples receipt, unless otherwise stated. The analytical results are valid for the delivered sample material only. Information about measurement uncertainty and source energy value can be delivered on request. General terms and conditions apply to all services and the supply of goods and products. These can be found on www.nutricontrol.nl. If the reportnumber contains \(^1\) or higher, then this report replaces the previous report. Without the permission of NutriControl, this report may only be copied integral.
